LE SAINT-LAURENT
CHARLEVOIX

Welcoming word

Thank you for choosing LE SAINT-LAURENT located in the beautiful municipality of Petite-Rivière-Saint-François. The place is ideal for family gatherings, business meetings or to have a good time with friends.

Ski enthusiasts will be delighted by Le Massif de Charlevoix, a ski resort located about 15 minutes away from the cottage.

The view of the St. Lawrence River is spectacular. The large windows on the river side were designed to maximize the show.

The house can welcome up to 16 people with 4 nicely furnished bedrooms plus one dormitory. The dormitory can sleep 8 (4 double beds), and there are 4 bathrooms for the party to share.

On the main floor, the group can enjoy a roomy environment, a fully equipped kitchen, and a wood fireplace in the living room. On the lower floor, each can escape to a favorite activity such as watching movie on a large screen (and sound system), playing pool as well as reading in a cozy area.

The outside has also been created for your maximal enjoyment. The view on the River is just as spectacular as you sit in the outdoor kitchen with the BBQ, near the jacuzzi and a fireplace. Those are available year round.

Résidences Boutique promises you a fabulous getaway !

We invite you to continue reading the welcome booklet where you will find relevant information to make your stay more enjoyable.

- Turn right on Chemin des Caps. (110 m)

LE SAINT-LAURENT
CHARLEVOIX

GENERAL GUIDELINES :

Check in : 5PM

Check out : 11AM

Internet : Please choose the WI-FI signal **DERYtelecom_80187908**.
The password is : **foxu8801**. At this moment, the wifi does not work in the bedrooms on the second floor, we are really sorry about that.

The cottage is equipped with two fire extinguishers, one in the entrance wardrobe and one in the mud room in the basement.

Makeup removal should not be made with **towels** and these should not be used on the ground outside, otherwise you will be charged extra for laundering.

No excessive noise, disturbance to the neighborhood, loud music or any abusive behavior whatsoever will be tolerated. Animals are not allowed. It is forbidden to smoke inside the chalet.

It is not necessary to wash the **bedding** or **towels** before leaving.

At the end of your stay, we would be grateful if you could make sure to leave the kitchen clean, turn on the dishwasher, turn off the lights, arm the alarm system and lock all the doors.

We ask for your cooperation not to throw fat or grease into the kitchen sink.

FRONT DOOR

- When you arrive, open the cover of the box near the entrance door and enter the code on the numeric keypad and pull down on the black key at the top of the keyboard. Open the box and take the key to unlock the entrance door. To close the box, please dial your code again. If you accidentally enter the wrong code, first press the delete key (c) at the bottom of the keyboard to re-enter your code.
 - When you leave, please lock the cottage door. To do so, first lift the handle up and then return it to the starting point and then use the key and lock the door. Do not forget to put the key in the little box near the door with your code.
-

LOCKS - DOORS AND WINDOWS :

Entrance door with deadbolt lock:

- To lock from the inside, lift the handle and return to the center before turning the lock counterclockwise.

Patio doors:

- To ensure that the air inlets of the patio door are limited and that the door is locked, the handle must be lifted upwards.

Windows :

- Bottom position to lock the window.
- Center position to open the window.
- Top position to toggle the top of the window.

Please note that the windows on the main floor and the second floor have a limited opening for your safety.

ALARM SYSTEM :

- The control for the alarm system is on the wall near the kitchen island. We intentionally placed the control there so that it is the least visible to the perpetrators.
 - Upon arrival, enter your code to disable the alarm system.
 - When you leave, make sure all the doors are securely closed, enter the code to activate the alarm system and push the ARMER key on the keypad.
-

FIREPLACE (WOOD) :

- You do not have to open or close a vent key.
- To raise the fireplace window, enter the two metal tools in the holes located on each end of the window.
- Prepare your fire and leave a slot in the fireplace window to get an optimal air intake.

N.B. Since the chimney of the outdoor fireplace is cold, a delay is necessary for the combustion to be effective.

FIREPLACE (PROPANE) :

- Open the valve **very slightly**. If you hear the gas come out, it means that the valve is open too much.
- Proceed quickly to ignite the burner with a lighter. Do not put your head over the fireplace.
- If the ignition is not done quickly, close the valve and wait 10 seconds before trying again.
- Make sure to turn off the valve when done.

UTILISATION DE L'EAU :

Water usage :

- Our cottage is equipped with a septic tank and an artesian well, so we thank you for respecting these rules :

Toilet :

- We must throw only the toilet paper provided . Tissues and tampons are prohibited. Thank you kindly for putting them in the basket.

Showers :

- Since our water comes from an artesian well, we ask you to space the use of showers.
-

SOUND SYSTEM :

- 1- Hold down the ON key for 4 seconds.
- 2- Pair the BAG OF RIDDIM II with your device via Bluetooth.
- 3- Different connection options are available by opening the small black cover on the front of the unit.
- 4- Only one device can be paired at a time.

IMPORTANT not to take the device outdoors.

POOL TABLE :

- Thank you for taking good care of the pool table. Please do not put food or drink on the carpet or the edge.
 - Since the table has been carefully leveled, we ask you to please leave it in place.
-

WASHER AND DRYER :

Washer :

- Place your clothes in the washer and close the door.
- Press the power button.
- Put the soap in the drawer located on the superior left corner.
- Turn the selector knob to the desired cycle.
- Choose the temperature and press the start button.

Dryer :

- Place your clothes in the dryer and close the door.
 - Press the power button.
 - Turn the selector knob to the desired cycle.
 - Press the start button.
-

TELEVISION :

- By default, the TV is played on the HDMI 1 source. To select this source, simply press the INPUT button on the SONY TV controller and select the HDMI 1 source. You also need to choose the selection 1 of the rocketfish controller (HDMI selector).
 - You must use the DERYtelecom controller to change the TV channels. The CBL (upper right) button must be pressed to control digital TV.
 - If you want to connect a device to the system, we invite you to connect it to the front of the rocketfish HDMI switcher. To use this unit, you will need to select option 4 of the rocketfish HDMI selector.
-

SOUND BAR :

To use the sound bar with the TV, you choose the TV source by pressing the button located on top of the sound bar beside the power button.

To use the sound bar with a Bluetooth device:

- 1- Press the Bluetooth key on top of the sound bar for 4 seconds.
 - 2- Activate the Bluetooth function on your device (ex : cell phone).
 - 3- Select the HT-CT290/291 from the list.
 - 4- It is only possible to use the sound system for one user at a time via Bluetooth.
-

COFFEE MAKER :

- 1- Put the carafe in place.
- 2- Press the door on the top of the machine (WATER TANK PRESS) and fill with water.
- 3- Fill the tray behind the water tank with coffee beans. The grind has already been adjusted for you.
- 4- Choose the number of cups of coffee desired by turning the Cup / Carafe knob.
- 5- Turn the STRENGTH knob to select the strength of the coffee.
- 6- Press the START / CANCEL button.
- 7- When the coffee is ready, press the OPEN key and lift the lid that covers the filter to empty it.

ESPRESSO MACHINE :

Espresso coffee preparation :

- 1- Fill the water tank located at the back of the machine and replace it in its position.
- 2- Switch on the machine using the switch (button 1) and wait until the blue indicator on the right side of the button turns on.
- 3- Insert the coffee filter in the pressurized portafilter and add ground coffee (1-1.5 measures for an individual coffee or 2 measures for a double coffee).
- 4- Insert the filter holder from the bottom into the coffee dispensing unit. Forcefully turn the filter holder from left to right until it stops.
- 5- Place a coffee cup under the dispensing nozzle.
- 6- Lift the coffee / hot water dispensing switch (button 3). The steam switch (button 2) should be positioned down.
- 7- When the machine has dispensed the desired amount of coffee, lower the coffee / hot water switch (button 3) again.
- 8- The distribution finished, wait a few seconds; remove the cup of coffee.
- 9- Remove the pressurized filter holder and evacuate the coffee grounds.

Hot water :

- 1- Turn on the machine using the switch (button 1) and wait until the blue indicator on the right of the button comes on.
- 2- Position the switch (button 2) on hot water (center).
- 3- When the indicator lights up, the machine is ready.
- 4- Open the steam / hot water knob (button 4) on the right side of the machine and lift the switch (button 3).
- 5- There will immediately be a water coming out from the steam nozzle.
- 6- When the desired amount of water is reached, turn the switch (button 3) off again and close the steam / hot water button (button 4).

Foaming milk :

- 1- To foam the milk, position the switch (button 2) on steam (top). When the light comes on, the machine is ready for use. Put the milk container under the steam nozzle and turn the knob (4) on the right side of the machine completely. When finished, close the steam / hot water button (button 4).

IMPORTANT : *After each use of the steam, open the steam / hot water button again (button 4) and turn the switch on hot water (button 2 in the middle) and raise the button 3. When the water starts to come out of the nozzle close the steam / hot water button (button 4) and lower the button 2 and button 3 switch. Clean the steam / hot water nozzle.*

SPA :

- 1- The water temperature is set at 102 degrees in the winter and 100 degrees in the summer and can not be increased or decreased.
- 2- Upon arrival, the spa water has been checked and it is ready for use. You can leave the chlorine dispenser in place during use.
- 3- When you have removed the spa cover, we ask you to store it vertically on the side of the cottage so that it does not freeze (winter). If you leave the lid on the ground, it may break when you try to put it back on the spa.
- 4- When using the spa, you can activate the jets using the control on the edge of the spa.
- 5- Please take care of the towels you bring outside.

**We are sorry, but the lights inside the spa
are not functional at the moment.**
